## THE FARMING WORLD

CORN ON THE COB.

Some Reasons Why It Should Never

Be Fed to Horses. Corn on the cob should never be fed to horses, as there is always'a risk of making them sick by doing so. When corn on the cob is fed, unless a horse's appetite is carefully noted and just enough is given to him, he will eat the cob also, and as the cob is more or less indigestible there is a big chance of making him sick and losing him. In feeding a horse care should be taken to give him just enough and no more, him to become familiar with each a too much being almost as bad as too little.

I have just heard of an experience with a good horse which proves the truth of what I have said. One of my friends who has a negro hostler has well and in good condition, owing to had trouble about keeping his horses the fact that if the hostler, for any reason, lost his temper with one of the horses he gave that horse's breakfast, dinner or supper to another horse, and when the stinted horse got his next meal (for the negro was afraid to cut him more than one meal at a time) he would eat cobs as well as the corn. One evening some time ago, when the stock came in from work, one of the horses was sick and it was found that he had indigestion. A remedy was given, and when after long work on him the sick animal evacuated a great number of pieces of cob as large as a chestnut were found, which showed conclusively the cause of the trouble. No blame was attached to the hostler at the time, but soon after another negro who had a grudge against the ilitempered hostler told how the horses were treated; investigation proved the truth of the story and the hostler was discharged. Since that time the horses have been fed on shelled corn and there ing in perfect health and looking well.

It is some trouble and a slight additional expense to shell the corn for Even a small investment is a great deal the horses, but it is better to do this than to have to sit up for hours with a sick horse and perhaps lose him at last. It is not, however, a great deal of trouble to me to shell my corn, as I use for this purpose a little corn sheller with which one man can easily rule such is not generally the case. shell a bushel of corn in ten minutes The only safe mode is to begin with a or less. I paid three dollars for it, and the work is so light and pleasant that but little the next, devoting the time to the children on the place enjoy shelling learning without incurring much risk, a large part of the corn used for the horses. Cows can eat cobs without Fireside. danger, but horses cannot. A horse is a clean and choice animal and must be more carefully treated than any other class of stock or he will not thrive .-Julien A. Hall, in Ohio Farmer.

#### HINTS FOR STOCKMEN.

The draft horse business is promising well.

Cause of Vertigo in Geese. The most frequent difficulty with ducks and geese is that of vertigo. They drop down on their feet or fall over to one side suddenly, at times as rapidly recovering, or dying immediately. This happens only when ducks or geese are fed on too much grain. The best system to adopt in summer is to put them in a field where short grass is abundant, or even young weeds, and let them get the food for themselves. They require but very little food in summer, as they are then well over the laying period, becoming non-producers. If this fact is kep in view-that of the non-producers re quiring but little food during warft weather-there would be a saving in expenses as well as fewer losses from disease, but it is difficult to convince those having good breeds that there is such a thing as killing with kindness-feeding too much .- Journal of Agriculture.

The Most Desirable Hog. The most desirable hog is one which will make a side weighing from 42 to 55 pounds. What is most needed is a hos The first consideration in planting which will develop well in flesh, have a trees about farm buildings is to shelter | deep side, well proportioned ham and them from sun, wind and storm. The shoulder, and which can be put on the need of shade in summer is generally market when weighing 165 to 190 breeding to develop a hog with a good thick belly; special attention should be duce an effect in ornamental planting side as nearly as possible even through-

# GIVES HER OLD NUMBER.

Young Bride Confused in Making Her First Purchase.

She was one of the prettiest little things in the world and the way she stepped into the store and ordered a bill of groceries was a sight worth witnessing. When she came to settle for them she found she did not have enough money with her, so blushingly asked that they be sent C. O. O. "Certainly," returned the obliging grocer, smilingly. "What is the number?"

The little lady stammered as she gave the name Gibson, but failed utterly when she came to the number. At last she faltered

"No. 4621 M-; no I mean 5537 B," and hastened away covered with confusion and

An interested bystander asked the grocer as the girl went out the door: "One of those persons who try to get goods under false pretenses, I suppose?"
and was very much astonished when the
grocer replied, laughingly:
"Not on your life. Just a bride giving
her first order. I can spot them a mile off."

-Chicago Chronicle.

YOU CAN'T STOP 'EM.

News comes from Attica, Ind., of the destruction, by fire, of the big laboratory and office building of the Sterling Remedy Company, makers of Cascarets Candy Cathartic and No-To-Bac, the original guaranteed to-bacco habit cure. The fire broke out in one of the packing rooms on the third floor dur-ing the noon hour, and had made consider-3 14 15 able headway before it was discovered.

As soon as it became apparent that the fire department would have difficulty in combating the flames, the work of saving the thousands of valuable documents, contracts, files, millions of booklets and tons of advertising matter was begun with the utmost energy. The Sterling Remedy Company is the principal industry of the beautiful little city of Attica, employing several hundred people, besides being affiliated with the Indiana Mineral Springs, the famous Magno-Mud Cure. Hundreds of men, women and children yied with each other in care en and children vied with each other in carrying the contents of the burning building

to places of safety.

Meanwhile the proverbial energy and and presence-of-mind of General Manager Kramer, of the Sterling Remedy Company, was displayed. He quietly walked away, and secured a big show room near by, and 19 20 21 22 23 24 25 18 19 20 21 22 23 24 had all the office furniture, charred and dilapidated as it was, taken there. Before the boxes had ceased burning, in which the fire originated, orders were being dictated in the make-shift office for new supplies, and car loads of material were ordered by wire while the streams were still playing on the ruins. Several shipments were made the statements regarding mining in the Yukon basin; and schemes for the profit of the "stay-at-homes" are more plentiful than icicles in Dawson. The railways are trying

### MRS. LYNESS ESCAPES

The Hospital and a Fearful Operation.

Hospitalsin greatcities are sad places to visit. Threefourths of the patients lying on those snow-white beds are women and girls.

Why should this be the case?

Because they have neglected themselves! Women as a rule attach too little importance to first symptoms of a certain kind. If they have toothache, they will try to save the tooth, though many leave even this too late. They comfort themselves with the thought that they can replace their teeth; but they cannot replace their internal organs! Every one of those patients in the hospital beds'

had plenty of warnings in the form of bearing-down feelings, pain at the right or the left of the womb, nervous dyspepsia, pain in the small of the back, the "blues," or some other unnatural symptom, but they did not heed them. Don't drag along at home or in the shop until you are finally obliged to

go to the hospital and submit to horrible examinations and operations! Build up the female organs. Lydia E. Pinkham's Vegetable Compound will save you from the hospital. It will put new life into you. The following letter shows how Mrs. Lyness escaped the hospital and a

fearful operation. Her experience should encourage other women to follow her example. She sayn to Mrs. Pinkham:

> "I thank you very much for what you have done for me, for I had given up in despair Last February, I had a miscarriage caused by overwork. It affected my heart, caused me to have sinking spells three to four a day, lasting sometimes half a day. I could not be left alone. I flowed constantly. The doctor called twice a day for a week, and once a day for four weeks, then three or four times a week for four months. Finally he said I would have to un-

> dergo an operation. Then I commenced taking

Lydia E. Pinkham's Vegetable Compound, and after one week I began to recover and steadily improved until I was cured completely. By taking the Pinkham medicine, I avoided an operation which the doctor said I would certainly have to undergo. I am gaining every day and will cheerfully tell anyone what you have done for me."-MRS, THOS. LYNESS, 10 Frederick St., Rochester, N. Y.

FOR DECORATING WALLS AND CEILINGS Purchase a package of from your grocer or paint dealer and do your own kalsomining. This material is made on scientific principles by machinery and milled in twenty-four tints and is superior to any concoction of Glue and Whiting that can possibly

MURALO WATER COLOR PAINTS

be made by hand. To BE MIXED WITH COLD WATER. If you want something extra, buy some MURALO from the same dealer. This material is a HARD FINISH to be applied with a brush and becomes as hard as Cement. Milled in twenty-four tints and works equally as well with cold or hot water. Send for sample cards and if you cannot purchase this material from your local dealers let us know and we will put you in the way of obtaining it.

THE MURALO CO., NEW BRIGHTON, S. I., NEW YORK.

N. B.—The attention of the trade is called to the fact that a man by the name of Church goes through the country trying to intimidate purchasers of our material by telling them that our paints are an infringement on his material, which he calls "Alabastine." We are advised by our patent counsel that his material when used with cold water is an infringement upon ours. We have invited Mr. Church to support his contention by suit against us and have volunteered to accept service of any papers he wishes to serve so as to save him trouble, that his pretended rights may be tested in the courts. This he refuses to do, but nevertheless continues his misleading statements, which course, under the circumstances, we believe will be condemned by all reputable dealers.

# CAUSE FOR ALARM.

# How baldness begins.

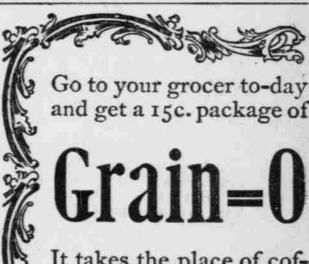

# How to prevent it.

of age and is a serious discomfort. The cases are rare when the falling out of the hair may not be stopped, and a new and healthy growth of the hair promoted. The lowa. He writes: hair grows in the scalp like a plant in the soil. If a plant flourishes, it must have constant attention; it must be watered regularly and find its food in the soil here it is rooted. It's so with the hair. Neglect is usually the beginning of baldness. Dandruff is allowed to thicken on the scalp. The hair begins to loosen. The scalp loses its vitality. The hair, insufficiently nourished, begins to fade and to fall. The instant need in such a case is some practical preparation which, supplying the needed nourishment to the scalp, will feed the hair, give it strength, and so produce a strong and healthy growth. All this is done by Dr. Ayer's Hair Vigor, the most practical and valuable preparation for the hair that can be obtained. It tones up the scalp, does away

Every person, male or female, shrinks hair, and gives an abundant and glossy from baldness. It adds to the appearance growth. Those who are threatened with

"About four months ago, my hair com-menced falling out so rapidly that I became alarmed, and being recommended Dr. Ayer's Hair Vigor by a druggist, I resolved to try this preparation. I have been now using it for three months, and am much gratified to find that my hair has ceased falling out and also that hair which had been turning gray for the past five years has been restored to its original color, dark brown. It gives me much pleasure to recommend this dressing."-S. J. GREEN, Alderman, Spencer, Iowa.

growth. All this is done by Dr. Ayer's Hair Vigor, the most practical and valuable preparation for the hair that can be obtained. It tones up the scalp, does away with dandruff, stops the hair from falling. restores the original color to gray or faded

It takes the place of coffee at 1 the cost. Made from pure grains it is nourishing and health-

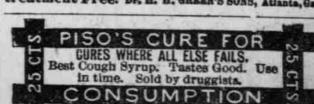

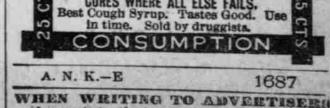

of the cheap homes and prosperous con-ditions in Nebraska and elsewhere, sub-scribe to "The Corn Belt," a monthly pa-per full of farm pietures and information about the West. It will be sent for one year for 25 cents; postage stamps accepted. Address, "THE CORN BELT," 209 Adams Street, Chicago.
